MODULES USED

RESOURCES USED

- Preprocessing Data from dataset

- Train the model using LSTM

- Test the model

- Future Additions:
  - Accuracy of Model

- Tatoeba Corpus
  - Hindi-English
  - Mandarin-English

- Keras API

ISSUES & FIXES

- Wikipedia Q&A System – Drop Topic (Complexity & Time Constraints)

- Language Translation (started as hobby project in May 2020)
  - TensorFlow usage – Google Tutorials & Documentations
  - Keras – Official seq2seq tutorial

- seq2seq encoder & decoder– StackOverflow + Guidance from brother

- Program Errors – Lengthy debugging sessions (Mostly Trial & Error)
